

COVID-19: WE HAVE FAST, FLEXIBLE SOLUTIONS TO SUPPORT YOUR EFFORTS

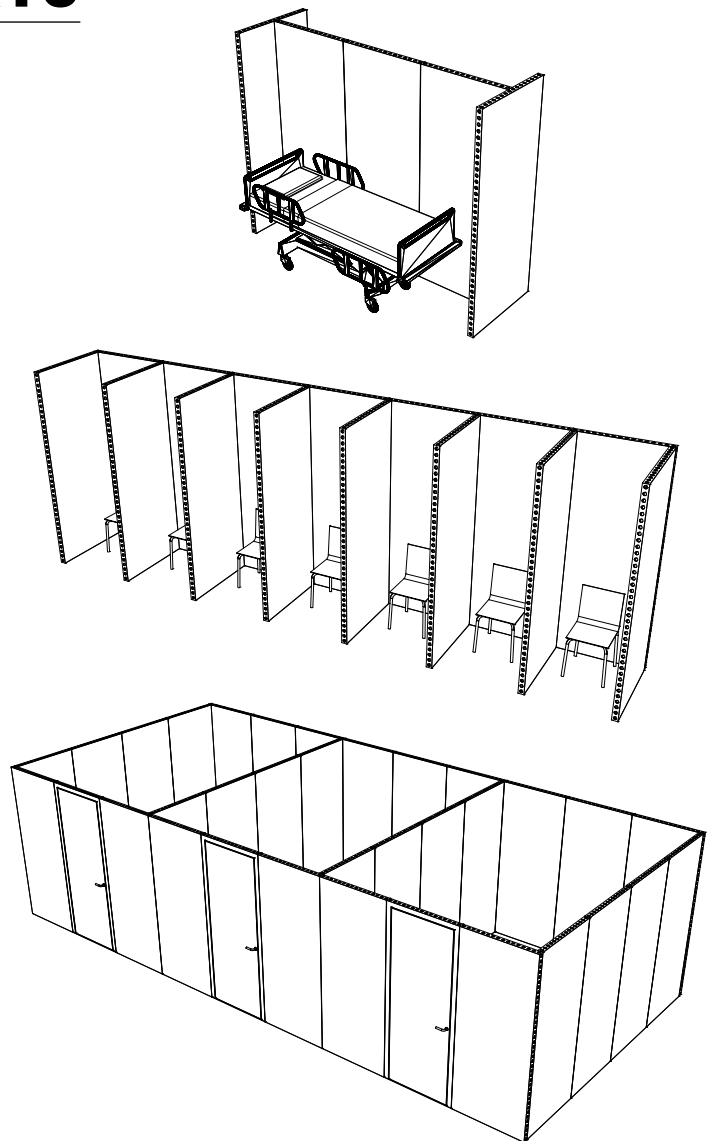

Your teams are working around the clock to implement necessary measures to identify, treat, and contain this pandemic. While our industry is shut down, we are here to help your efforts take shape even faster.

We have extensive inventory of lightweight, durable panels that can be configured—and reconfigured—to meet your ever-changing needs as you set up test sites and additional locations to work towards containing and ending this crisis. Set-up tents, meeting centers, and whatever other designated indoor and outdoor areas you need quickly.

Antimicrobial fabric, vinyl, emergency and traffic signage are among other items we produce and/or have readily available to assist you. Additionally, we can provide meeting room and office furniture such as tables, chairs, and monitors.

We are ready to implement our support from our Central MA and Las Vegas locations.

- Flexible Sizing
- Reconfigurable
- Durable
- Graphics + Vinyl
- Antimicrobial Fabric
- Furniture
- Monitors

WE WANT TO BE PART OF THE SOLUTION.
HOW CAN WE HELP YOU NOW?

Our capabilities and inventory are adaptive and available to you.
Let's discuss how we can make your plans come to fruition quickly.
